DETAILED ACTION

Allowable Subject Matter

1. Claims 1-43 are allowed.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Lazarus on August 22, 2007.

The application has been amended as follows:

Please Cancel Claim 44.

3. The following is an examiner's statement of reasons for allowance: Claims 37, 39 and 40 are presented in means-plus-function format, as per *In re Donaldson*, 16 F.3d 1189, 29 USPQ2d 1845 (Fed. Cir. 1994) and 35 U.S.C. 112, 6th paragraph, limitations expressed as such "shall be construed to cover the corresponding structure, material, or acts described in the specification and equivalents thereof." In the instant case, the independent claim recites "means for locking the headrest to prevent up and down movement relative to the seat shell" This means-for recitation limits the present

invention to include structure (detailed in the Specification, page 8, line 7 through page 9, line 22) including vertical slots with width-wise extended positioning holes and locking pins oriented perpendicular to a plane of the headrest and having two diameters, all of which is neither anticipated nor made obvious by the prior art. The above limitations, in combination with the rest of the recited structure, clearly define over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
